**FURNITURE  
WITH A STORY**

*Design is an endless process of thought. Each design is unique and it is the process of transforming abstract parts that break away from the designer’s mind into concrete.*

*Design is a journey into the unknown. When this long journey ends, design meets us in a concrete way. Every design that has been successfully narrated with master hands has a story.*

*Modis sofa aims to design the simplest, most modern and most comfortable products for you at the end of long design processes. Modis sofa products, which go through their special design processes, are ready to be presented to you in our new collection of 2019-2020 to be presented to you.*
